

25 May 2022

Extension to Acquire 51% of High-Grade Hansen Uranium Project

Okapi Resources Limited (ASX: OKR, OTCQB: OKPRF) (**Okapi** or the **Company**) advises that it has extended the Option Date on the proposed acquisition of the 51% interest in the Hansen Uranium Project in Colorado, USA by 30 days to no later than 2nd July 2022. The extension allows both parties sufficient time to finalise and execute the Definitive Agreement.

The details of the proposed acquisition were announced to the market on the 7th April 2022.

The Hansen Uranium Project is located immediately south of, and adjacent to, Okapi's 100%-owned Taylor and Boyer Uranium Deposits, and comprises two deposits known as the Hansen Uranium Deposit and the Picnic Tree Uranium Deposit. The Hansen and Picnic Tree Uranium Deposit contains a JORC (2012) Mineral Resource of **22.2 million pounds U₃O₈ at 610 ppm U₃O₈** (100% of which is attributable to Okapi via its 51% mineral interest). Upon completion, Okapi's updated JORC (2012) Mineral Resource for the Tallahassee Uranium Project will be **42.0 million tonnes at 540ppm for 49.8 million pounds of U₃O₈** representing an 81% increase to the size and an increase of 10% to the grade of Okapi's existing JORC (2012) Mineral Resource.

About Okapi Resources

Okapi Resources Limited recently acquired a portfolio of advanced, high grade uranium assets located in the United States of America and in the Athabasca Basin, Canada.

Assets include a strategic position in one of the most prolific uranium districts in the USA – the Tallahassee Creek Uranium District in Colorado. The Tallahassee Uranium Project contains a JORC 2012 Mineral Resource estimate of **49.8 million pounds of U₃O₈ at a grade of 540ppm U₃O₈** with significant exploration upside. The greater Tallahassee Creek Uranium District hosts more than 100 million pounds of U₃O₈ with considerable opportunity to expand the existing resource base by acquiring additional complementary assets in the district.

The portfolio of assets also includes an option to acquire 100% of the high-grade Rattler Uranium Project in Utah, which includes the historical Rattlesnake open pit mine. The Rattler Uranium Project is located 85km from the White Mesa Uranium Mill, the only operating conventional uranium mill in the USA hence provides a near term, low-capital development opportunity.

In January 2022, Okapi acquired a portfolio of high-grade exploration assets in the world's premier uranium district, the Athabasca Basin. The Athabasca Basin is home to the world's largest and highest-grade uranium mines.

Okapi's clear strategy is to become a new leader in North American carbon-free nuclear energy by assembling a portfolio of high-quality uranium assets through accretive acquisitions and exploration.

JORC 2012 Mineral Resource Estimate for the Tallahassee Uranium Project

Property	Measured			Indicated			Inferred			Total		
	Tonnes (000)	Grade U ₃ O ₈ (ppm)	Lbs U ₃ O ₈ (000)	Tonnes (000)	Grade U ₃ O ₈ (ppm)	Lbs U ₃ O ₈ (000)	Tonnes (000)	Grade U ₃ O ₈ (ppm)	Lbs U ₃ O ₈ (000)	Tonnes (000)	Grade U ₃ O ₈ (ppm)	Lbs U ₃ O ₈ (000)
Hansen/Picnic Tree**	-	-	-	7,309	640	10,360	9,277	580	11,874	16,586	610	22,234
Taylor and Boyer	-	-	-	7,641	520	8,705	14,869	460	15,172	22,513	480	23,877
High Park	2,451	550	2,960	24	590	30	434	770	734	2,907	580	3,724
Total	2,451	550	2,960	14,976	580	19,095	24,580	510	27,780	42,007	540	49,835

Notes: Calculated applying a cut-off grade of 250ppm U₃O₈. Numbers may not sum due to rounding. Grade rounded to nearest 10ppm.

**Numbers reported are 51% of the Hansen/Picnic Tree due to ownership agreements.

Competent Persons Statement

Information on the Mineral Resources presented, together with JORC Table 1 information, is contained in the ASX announcement titled "Okapi to acquire Hansen Deposit – Resource increased by 81%" which was released as an announcement on 7 April 2022. The Company confirms that it is not aware of any new information or data that materially affects the information in the relevant market announcements, and that the form and context in which the Competent Persons findings are presented have not been materially modified from the original announcements.

Where the Company refers to Mineral Resources in this announcement (referencing previous releases made to the ASX), it confirms that it is not aware of any new information or data that materially affects the information included in that announcement and all material assumptions and technical parameters underpinning the Mineral Resource estimate with that announcement continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Persons findings are presented have not materially changed from the original announcement.
